## **DETAILED ACTION**

### ***Election/Restriction***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-9 and 23-37, drawn to a discrimination primer and kit containing the primer for amplifying a nucleotide sequence that includes a first base at a position suspected of a polymorphism, classified in class 536, subclass 24.33.
  - II. claims 10-22, drawn to a method for detecting a polymorphism in a nucleic acid via amplifying the nucleic acid with a first and second primer, classified in class 435, subclass 91.2.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the products, Invention I, claims 1-9 and 23-27 are drawn to a discrimination primer which can be used in hybridization or nucleic acid purification, while the process, Invention II, claims 10-22 are drawn to a method for detecting a polymorphism in a nucleic acid via amplifying the nucleic acid with a first and second primer in which any nucleic acid sequence can be used in the method.

Art Unit: 1637

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. Y. Rocky Tsao on 9/3/2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

6. Any inquiries concerning this communication or earlier communications from the examiner should be directed to Joyce Tung whose telephone number is (703) 305-7112. The examiner can normally be reached on Monday-Friday from 8:00 AM-4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Benzion can be reached at (703) 308-1119 on Monday-Friday from 10:00 AM-6:00 PM.
